Introduction

- **Difficult to track prices of multiple crypto assets**

- **Your crypto may be held in different locations**

- **Track the value of all crypto holdings in one place**

Demo

Crypto Portfolio Tracker

Register   Login

New technologies

- **React**
- **Chart.js**
- **JWT**
- **bcrypt**

- **GSI and queries**
- **EventBridge**
- **Mocking static methods**

Challenges

- **Difficulty of learning React**

- **Handling login and session**

- **Handling headers and errors**

- **Managing 3rd party API calls**

Lessons learned

- **Planning with design document**

- **Time allocation for integration testing**

- **Daily standup meetings**

- **Research and team collaboration**
